Bossco International Introduces the Ultimate in Wrench Technology

San Diego, CA (August 20, 2009) HI:BEAM, a brand of Bossco International, and an industry leader in all in one portable illuminators, announces their newest state of the art technology product.

The ultimate in wrench technology has arrived.

Ever thought it could be this easy? The first-ever, patent pending **HI:BEAM Lighted Open End Wrench Set** allows you to complete any project even in the tightest and darkest spaces. Each wrench has a recessed LED light on both open ends with three light options—low beam, high beam and emergency flashing. Set includes 14 options with seven double-ended wrenches in both metric and standard measurements.

The light wrenches were created to make your life easier:

- Low and high beams are perfect for working in dark places including automobiles, sinks, garages, sheds, boats—anywhere a wrench is needed
- Emergency flashing provides a signal for help when off road repairs are required
- LED lights are 6,000 mcd or 2,500 Lux of power and hold a charge for up to 5 hours
- 7 wrenches double sided in metric and standard = 14 options:
- 3/8" -- 10 mm, □7/16" -- 12 mm, □1/2" -- 13 mm, □9/16" -- 15 mm, □5/8" -- 17 mm, □11/16" -- 18 mm, □3/4" -- 20 mm
- Wrenches are made of chrome plated drop forged steel hardened to 50 HRC
- Wrenches include a quick re-charge system that independently charges each wrench with a maximum light time of 5 hours
- Rechargeable unit can stand on a counter or hang on a wall by peg holes and plugs into 110V socket
- Includes a full set of rechargeable batteries

The complete HI:BEAM line is perfect for any project whether in the garage, workshop, out in the field, sports activities, camping, emergency roadside needs or any place where intense, hands-free light is needed.

The HI:BEAM line is proudly designed and engineered in the USA by Bossco International. All products are produced under strict ISO 9001 guidelines.
