### **Bossco International's Handy Luma Lite Picked Up by Wilco Travel Centers**

San Diego, CA (June 9, 2010) Bossco International, an industry leader in the all-in-one portable illuminators, has announced that Wilco Travel Centers have been added to their distribution list for their HI:BEAM Luma Lite.

The Luma Lite is an all-in-one light replacing the wall light, flashlight, lantern and headlamp, providing portable light for any situation. This innovative tool features state-of-the-art technology including four LED lights with up to 100,000 hours of usage. The Luma Lite rotates a full 360° and tilts up to 45°. It's water resistant with no wires or exposed electrical components.

“Our product went through a pretty strenuous twelve-store test with two reorders within 30 days,” Cliff Wright, inventor of the Luma Lite and president of the company said. “We just received a purchase order for Wilco Travel Centers along the East Coast who will be carrying the Luma Lite beginning this August. It's very exciting.”

The Luma Lite, Bossco's flagship product, comes with a built-in magnetic base and hat clip attachment allowing you to work, hands free, with direct light on any project near or far. Great for any automotive project whether in the garage or emergency roadside needs. The Luma Lite is also handy for plumbing repairs, electrical work, and custom household lighting projects.

Bossco International offers some of the most innovative, highly advanced and superior quality products on the market today. Call 858-391-9219 or visit [www.bosscointernational.com](http://www.bosscointernational.com)
